- 2. No using the unlighted ranges after sunset unless approved by KSA.
- 3. Consumption of alcohol is not permitted prior to or during range use.
- 4. Use of eye and ear protection is required at all risk areas.
- 5. All firearms must be unloaded with actions open, magazines out and cylinders open before anyone goes downrange.
- 6. No handling of firearms when there are persons downrange.
- 7. No shooting at anything other than targets secured on club target backers or other approved targets.
- 8. After shooting, deposit cases in case buckets and remove targets from target boards and place in waste cans.
- 9. No full-auto firearms permitted on any of the club ranges unless they are approved for use in a scheduled club shoot.
- 10. Club members are responsible for their guest that they bring on the club property and for their actions.
- 11. Any destruction of club property will result in recommendation of immediate membership termination.
- 12. Membership cards must be visible while on club grounds.
- 13. Any children on club property must be under direct adult supervision.
- 14. Do not litter on club property.
- 15. Lock the gate on your way out if you are the last person on club property.

## NRA Gun Safety Rules

- 1. **Always point the gun in a safe direction.**

This is the primary rule of gun safety. A safe gun direction means that the gun is pointed so that even if it were to go off it would not cause injury or damage. The key to this rule is to control where the muzzle or front end of the barrel is pointed at all times. Common sense dictates the safest direction, depending on different circumstances.

- 2. **Always keep your finger off the trigger until ready to shoot.**

When holding a gun, rest your finger on the trigger guard or along the side of the gun until you are actually ready to fire. DO NOT TOUCH THE TRIGGER.

- 3. **Always keep the gun unloaded until ready to use.**

Whenever you pick up a gun, immediately engage the safety device if possible, and, if the gun has a magazine, remove it before opening the action and looking into the chamber(s) which should be clear of ammunition. If you do not know how to open the action or inspect the chamber(s), leave the gun alone and get help from someone who does.

For additional safety materials see: NRA Gun Safety Rules
